One thing, I am a little concerned about the first bullet, that we need to clarify. We believe we have (all) provided an ongoing program of Site community involvement with the TAG, CAG, Community Meetings, CIP, fact sheets, signs, etc. It was my understanding from the recent "EJ Conference" that there were concerns about us not being more engaged with the EJ community.. As I had mentioned at our Meeting, we have received a request for a second local CAG and responded that we, EPA, would support that. However we will invite representatives to the CAC as noted.
